

Recommended Usage:

Poultry:

As immunomodulator and growth promoter:-

2.5-7.5 gm mixed with 100 ltr. water for 500 birds twice daily for 4 to 8 weeks.

For mortality prevention programme during severe stress, immune compromised status or disease exposure:-

7.5-15 gm mixed with 100 ltr. water for 500 birds twice daily for 2-3 weeks.

Aqua:

As immunomodulator and growth promoter:-

2 gm/kg of feed during fry, fingerling stage.

1 gm/kg of feed up to 120 days of growth period in carps/ up to 45 days in prawns.

0.5 gm/kg of feed from 121 days onwards in carps/ from 46 days onwards in prawns.

During severe stress, immune compromised status or disease exposure, the rate of supplementation may be increased up to 2-3 times.

Packaging:

100 gm, 500 gm and 1 kg

Poor Immunity Erases Farm Profits

- Hampers Growth
- Highly incidence of diseases
- High Mortality Rate
- Poor production performance

Aurimune™

FORTE WS

Potent Organic Immunomodulator

AURIMUNE FORTE WS is an innovative organic immuno-modulator formulation fortified with Lysozyme, phytochemical principles of *Ocimum sanctum*, *Phyllanthus emblica* and *Allium sativum* for better immunity, health and enhanced growth.

Composition:

Each 1 kg contains:

Mannan oligosaccharides.....	160 gm
Vitamin C.....	48 gm
Betaine hydrochloride.....	200 gm
Pepsin.....	1.44 gm
Vitamin E.....	48 gm
Sodium selenite.....	3.6 gm
Nucleotides.....	16 gm
Protein Hydrolysate.....	120 gm

Fortified with Microbial Lysozyme and phytochemical principles of *Ocimum sanctum*, *Phyllanthus emblica* and *Allium sativum*.

Aurimune™
FORTE WS
Potent Organic
Immunomodulator

Mode of Action:

Ocimum sanctum, *Phyllanthus emblica*, *Allium sativum*, Vitamin C, Vitamin E, Selenium, Nucleotides and Amino acids:
Inhibits peroxidation of lipids which prevents the cell damage and organ dysfunction. It Improves biochemical parameter and reduces oxidative stress.

IMMUNOMODULATOR

Ocimum sanctum, *Phyllanthus emblica*, *Allium sativum*, Mannan Oligosaccharide Nucleotides, Amino acids, Vitamin C, Selenium and Lysozyme:
Increases leukocytes count and immunological active protein to maintain immune system by induction of cytokines and phagocyte cells.

ANTI-MICROBIAL

Ocimum sanctum, *Phyllanthus emblica*, *Allium sativum*, Lysozyme and Nucleotides:
Improves pathogenic effect against microorganisms, virus, bacterial and disease resistance.

IMPROVES DIGESTION

Betaine hydrochloride, Mannan Oligo Saccharide, Pepsin, Lysozyme, Nucleotides:
Stimulates the secretion of digestive enzymes which enhance the absorption of nutrients, weight gain, and FCR and growth performance.

Indications:

- Improves immunity, reduces mortality, enhances growth and provides better health.
- Acts as supportive therapy during disease exposure and helps in faster recovery.
- Growth Promoter

Organic Immunomodulator with Lysozyme, Phytochemical principles of *Ocimum sanctum*, *Phyllanthus emblica* and *Allium sativum*
